

LexiContract AI

Intelligent Contract Review & Abstraction

Series A Funding Round | Q1 2025

The Problem

Legal teams are drowning in contracts they can't process fast enough.

9.5 hrs

AVG. TIME TO REVIEW ONE CONTRACT

\$450/hr

ASSOCIATE ATTORNEY COST

71%

GCS SAY VOLUME IS UNMANAGEABLE

Time Drain

Associates spend 60% of billable hours on routine contract review instead of strategic work

Risk Exposure

Human fatigue leads to missed clauses, costing enterprises an average of \$2.5M annually in legal disputes

Our Solution

AI that thinks like your best attorney

LexiContract AI Platform

Intelligent Extraction

- Automatically identifies 150+ clause types across contract categories
- Extracts key terms, dates, obligations, and renewal conditions
- Maps clauses to your company's playbook and risk thresholds

Risk Scoring

- Proprietary ML model trained on 2M+ legal documents
- Flags non-standard language and deviation from preferred terms
- Prioritizes review queue by risk level and deal value

Automated Abstraction

- Generates structured summaries in minutes, not hours
- Exports to CLM systems, spreadsheets, or custom formats
- Full audit trail for compliance requirements

Redlining Assistant

- Suggests revisions based on negotiation history
- Auto-generates comparison against standard templates
- Learns from attorney feedback to improve over time

How It Works

1. Upload

Drag & drop contracts in any format (PDF, Word, scans). Batch upload supported.

2. Analyze

Our AI extracts clauses, identifies risks, and maps to your playbook in under 2 minutes.

3. Review

Attorneys validate flagged items. Human-in-the-loop ensures accuracy and builds trust.

4. Execute

Export abstracts, track obligations, and integrate with your CLM or ERP systems.

Result: Reduce contract review time by 85% while improving accuracy to 99.2%.
